

# SHARING HIS LOVE

Lyrics & Music by Colin McCrow

## Chorus

A                      D E                      A  
We're sharing of His love, His love is around us;  
   D E                      A  
Yes we're sharing of His love, Love will see us through.

D                      A                      G                      A  
Once we were lost in sin, Sin was our life;  
D    A                      G                      E  
You came along and showed the way, Of love renewing.

D                      A                      G                      A  
Our lives were dark and dim, Couldn't see the day;  
D    A                      G                      E  
His light shone through it all, To show us the way.

D                      A                      G                      A  
Won't you follow Him my friend? He knows the way;  
D                      A                      G                      E  
His love's for everyone, You and me today.
