

# LONELY PEOPLE

*Lyrics & Music by Colin McCrow*

A7sus4                    D                    A7sus4                    D  
Being by yourself all day long, Not knowing quite what to do,  
Em    G  
Being without love, it is what you want;

## *Chorus*

D    A7sus4                    G                    A\_7                    D  
They are lonely people, Ooh lonely people, Lonely people need love,  
D    A7sus4                    G                    A\_7                    D  
Yes they're lonely people, Ooh lonely people, Lonely people need love.

A7sus4                    D                    A7sus4                    D  
Life seems so hard going nowhere, People against their fellow man,  
Em    G  
Living without peace, true peace of mind;

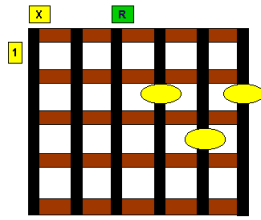

A7sus4                    D                    A7sus4                    D  
Jesus has the love, the kind we need, We're all lonely people within,  
Em    G  
Dying for us, took us from being;

## *Coda*

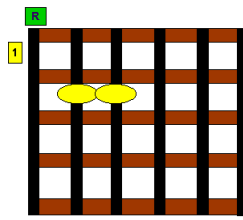

D                    F6/D Am7                    A  
Lonely people need His love.
